

Chastain Arts Center Supply List

Designing Jewelry with Metals, Beads, Stones, Crystals I & II / Joyce Ryan

Class Description:

I – This class will cover techniques in beading, stringing wire wrapping and weaving. This is a project-based class suitable for beginners and more experienced students as well. Starting with earrings we will cover basic techniques for working with wire before learning how to create custom clasps, pendants, and rings

II – Taking your skills further, we will make a wire wrapped bracelet with beads, custom findings, earrings, and a wire wrapped pendant with a cabochon.
